1 General information

In the context of this document ASC represents ASC Technologies AG, its subsidiaries, branch offices, and distributors. An up-to-date overview of the aforementioned entities can be found at <https://www.asctechnologies.com>

ASC assumes no guarantee for the actuality, correctness, integrity or quality of the information provided in the manuals.

ASC regularly checks the content of the released manuals for consistency with the described hardware and software. Nevertheless, deviations cannot be excluded. Necessary revisions are included in subsequent editions.

Some aspects of the ASC technology are described in general terms to protect the ownership and the confidential information or trade secrets of ASC.

The software programs and the manuals of ASC are protected by copyright law. All rights on the manuals are reserved including the rights of reproduction and multiplication of any kind, be it photo mechanical, typographical or on digital data media. This also applies to translations. Copying the manuals, completely or in parts, is only allowed with written authorization of ASC.

Representative, if not defined otherwise, is the technical status at the time of the delivery of the software, the devices and the manuals of ASC. Technical changes without specified announcements are reserved. Previous manuals lose their validity.

The general conditions of sales and delivery of ASC in their latest version apply.

In the Reports module, you can view the reports that have already been created on basis of the templates and the corresponding instances.

General information about reports based on evaluations

Only those evaluations are included in the reporting which have been released by the evaluator. All first evaluations and re-evaluations are considered. If the option for an agent feedback has been activated in the evaluation template that the report is based on, then this evaluation is not considered before the agent has agreed with the evaluation or before the deadline for submitting an agent feedback has passed without the agent using this option. For the evaluation to be considered, the evaluation must have been released within the period of time that the report covers.

The values of a report may change at a later moment even if they have been obtained during a period in the past, e. g. when an agent considered in the report changes the organization unit or when the original evaluation becomes obsolete because an agent has objected to it and thus initiated a re-evaluation. If an agent belongs to several organization units, his evaluations are only counted once instead of for each organization unit separately.

Group-based reports refer to the groups of one organization level and not automatically to possibly subordinated groups.

Open the module by clicking on the menu item *Reports* in the navigation bar.

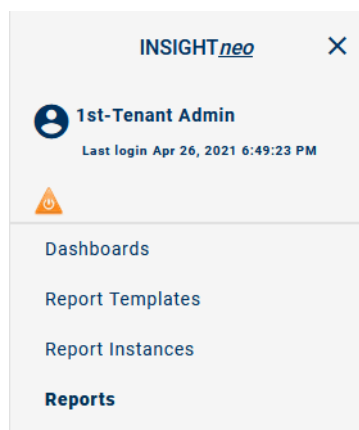

Fig. 1: Menu item Reports

Basic information about using the application INSIGHTneo can be found in the user manual *INSIGHTneo - General information*.

3

Calculation of reports based on evaluations

Most [WFO](#) reports are based on evaluations made via the application INSPIRATION_{neo} and/or corresponding evaluation templates.

The following calculation rules apply:

- Total score of a question = score x severity / 100
- Total score of a section = (sum of total scores of all questions) x 100 / (sum of severities of questions)
- If the option *N/A* has been selected, the question is not considered in the calculation.

Examples:

- first question: severity = 70, Excellent = 100; second question: severity = 50; N/A; third question: severity = 100, average = 60
- Calculating the score of the section: first question: $70 \times 100 / 100 = 70$; second question: N/A; third question: $100 \times 60 / 100 = 60$; sum of all questions = 130; total score of the section: $(130 \times 100) / (100 + 70) = 76,47$

4

Main view

Click on the menu item *Reports* in the navigation bar to open the table of the main view. In the main view, all created reports are displayed which have been assigned to the current user in the Report Instances module in the tab *Recipients*.

Name ↕	Created By ↕	Comment ↕	Report Language ↕
Supervisorenvergleich - Kalibrierungen (Balkendiagramm)	Admin, 1st-Tenant		de_DE
Agent comparison - evaluation template	Admin, 1st-Tenant		en_US
Durchschnittliche Gesprächsdauer	Admin, 1st-Tenant		de_DE
Average call duration	Admin, 1st-Tenant		en_US

Rows per page 50 0 - 0 of 0 Last filtered on 11/14/2018 1:56:49 PM; Number of known datasets: 0

Fig. 2: Reports - main view

Depending on the configuration of the columns, the following information is displayed in the main view:

<i>Name</i>	Shows the name of the report instance which has been the basis for the report.
<i>Comment</i>	Shows the comment saved for the selected instance.
<i>Created By</i>	Name of the user who has created the report.
<i>Report Language</i>	Shows the language used in the report.
<i>Creation Date</i>	Date on which the report was created.
<i>Updated</i>	Date on which the report was updated the last time.

4.1

Toolbar

The toolbar offers the following functions.

Fig. 3: Toolbar Reports module

	<i>Refresh</i>	Refreshes the table in the main view.
	<i>Search</i>	Opens the window of the search function. The search function allows searching systematically for sets of data which meet certain criteria, see chapter "Search", p. 8 . The icon  is displayed whenever the search has been adjusted by means of a filter.

	<i>Reset search</i>	Resets all manually entered search criteria.
	<i>Show preview</i>	After selecting the format of the preview in a drop-down list which contains all formats you have selected in the tab <i>Details</i> (multiple selection possible), a preview is opened.
	<i>Delete</i>	Deletes the selected report.
<i>Reports</i>		This menu is currently not available
<i>General</i>	<i>Print</i>	Prints the table of the main view.
	<i>Adjust Table</i>	Opens a window in which you can adjust the following settings for the main view: <ul style="list-style-type: none"> • Displayed information • Order of the displayed columns • Number of rows per page
	<i>General Help</i>	Opens the online help.
	<i>Module Help</i>	Opens the module-specific online help.

In the user manual *INSIGHTneo - General information*, you find detailed descriptions of the default functions such as *Print*, *Adjust table* or *Help* if required.

 Search [► 8]

4.1.1

Search

The search function allows searching systematically for sets of data which meet certain criteria.

1. In the toolbar, click on the icon  or  (*Search*).
⇒ The window *Search Criteria* appears.

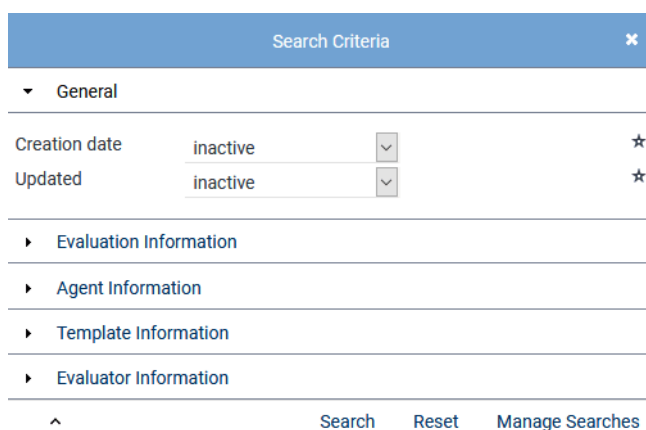

Fig. 4: Window Search Criteria (example)

2. Set the respective search criteria.
NOTICE! It depends on the respective module which search criteria are available.
3. To start the search, click on the button *Search*.
To reset all manually entered search criteria, click on the button *Reset*.
⇒ After running the search, only those sets of data are displayed in the main view which meet the set search criteria.
4. To display all original sets of data in the main view again, i. e. to reset the manually entered search criteria, click on the icon  (*Reset search*) in the toolbar.

By clicking on the button *Manage Searches*, you can save the defined search criteria under an unambiguous name, load saved search criteria or delete them.

By clicking on the icon ★, you can tag the search criterion as favorite. Criteria tagged as favorite are displayed additionally in the upper area of the window *Search Criteria* and marked with the icon ★.

If conversation rules (view filters) apply for the logged-in user, then predefined search settings are displayed in the search criteria of the following modules which comply with the filter settings of the conversation rules:

- Sessions module
- Calibrations module
- Audio Analysis module

You cannot delete these user-specific filter settings or search settings: however, you can add new ones and thus additionally filter the displayed entries in the main view.

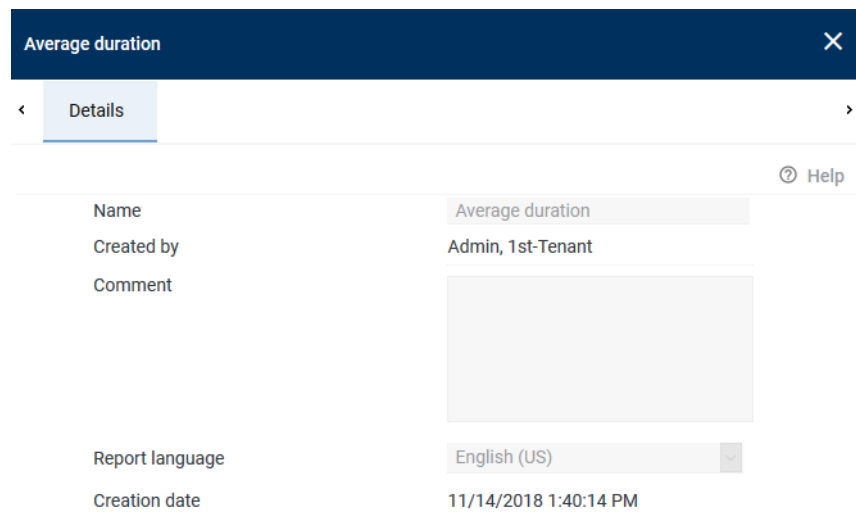

A detailed description of the search function can be found in the user manual *INSPIRATION\$-neo\$ - General information*.

5

Detail view

Click on an element in the table of the main view to display additional information about the selected report in the detail view.

The screenshot shows a modal window titled "Average duration" with a close button (X). Below the title bar is a navigation bar with a left arrow, a "Details" tab, and a right arrow. A "Help" icon and label are in the top right. The main content area displays the following fields:

- Name:** Average duration
- Created by:** Admin, 1st-Tenant
- Comment:** (Empty text area)
- Report language:** English (US) (Dropdown menu)
- Creation date:** 11/14/2018 1:40:14 PM

Fig. 5: Reports - detail view

<i>Name</i>	Name of the report
<i>Created by</i>	Name of the agent who has created the report.
<i>Comment</i>	Shows the comment which has been saved for the report instance which has been used as the basis for the report.
<i>Report language</i>	Language which is supposed to be used in the report.
<i>Creation date</i>	Date on which the report was created.
