1 GENERAL

Connections whose equipment positions can be utilized to initiate call tracing.

- individual PBX operators
- voice extensions
- external lines
- tie-lines
- recorded announcements

For the above, all equipment positions in the switching path and the B-parties participating in the call are traced. The result is presented as a printout on the terminal.

2 PREREQUISITES

3 AIDS

I/O-terminal.

4 REFERENCES

In these operational directions references are made to the following documents:

Command description: *call_trace*

5 PROCEDURE
