Quick Start

The guide provides information for frequently used features. For more information about these and other features, refer to the user guide.

Phone Manager UI with Presence Profiles

Phone Manager UI without Presence Profiles

Phone Manager Call Banner

Using the Call Banner

If there are any calls at the extension then the Call Banner will appear, this provides control for features such as Hold/Retrieve, Transferring, Answering and Clearing calls. If there is more than one call at the extension the banner will expand to display the different calls and provide a means to swap between them.

Call Banner Buttons

Button	Action
Answer call	Answers an inbound ringing call
Clear call	Clears a connected call
Hold Retrieve	Toggles a connected call between hold and connected state
Send to Divert voicemail	Offers the ability to divert an inbound call to voicemail or chosen destination
Transfer	Provides the ability to setup an announced transfer
Add Call Merge	Provides the ability to setup an ad hoc conference
Complete Cancel	When performing a consultation transfer, these buttons can be used to complete or cancel the transfer
Mute	Used to toggle the mute state of a connected call
Pull Call	This button can be used to pull back a call that has routed through the telephone system to an external number (Home, Mobile etc)
-3	This button can be used to push a connected call out to another one of your devices
\$2	This icon will display when making outbound calls and the phone system is ringing multiple devices to find the person you are calling

Making Calls

Making calls using Phone Manager is a simple process and can be achieved in a number of different ways:

- Dial a number you know by entering it into the Search or Dial box and press enter
- Dial a user or device from the Contacts window by double clicking or pressing the dial icon next to it
- Search the directory by entering a name in the Search or Dial box to find a number to dial
- Highlight a number in a different application and double click the Highlight & Dial icon which can be found on the right hand side of you screen

Transferring Calls

Calls can be transferred by using the buttons on the call banner. The main Phone Manager Search or Dial or the Contacts Window should be used for choosing the transfer destination. After pressing Transfer on the Call Banner the main Phone Manager window will be brought into focus ready for you to enter a number to dial.

Alternatively, dialling a number using any of the make call methods described above when a call is in progress will automatically setup a consultation transfer without having to first press a button on the Call Banner.

When performing a consultation transfer it can be completed or cancelled using the relevant buttons on the Call Banner or simply hand up to complete.

💄 Logged In (1046) 🗸	ယ Voicemail	👯 Dialpad	🖵 Chat	
Type or Select a Transfe	r Destination		Q	Consult

Contacts View

The contacts tab within Phone Manager provides a real-time view of information about other devices including users, extensions, agents, speed dials and hunt groups. This gives an overview of the status of these devices and call control features such as single click to dial.

The views available include a personal favourites view and centralised business units that have been configured on the server. Use the binder icon to hide or show different views.

lcons	Description
	User icon, This icon appears on the Large view of the contact screen. The users status shows in the circle in the bottom right-hand corner. The user profile image will display in the large circle.
	If the user has no profile picture then the icons below will be used
2222	User icon, an outlined icon means the user does not have Phone Manager running. These icons are visible on the Details view of the contacts screen
	Extension icon
<u>88888</u>	Agent icon
	Directory Contacts (Global or Personal Directory, Phone System Directory, Outlook Directory)

Colour Key: Grey - Offline, Green - Available, Red - Busy, Blue - Do not disturb, Yellow - Wrap up

A user who has privacy enabled may show xxxx in the extension and Caller ID fields.

e –	Phone Manager Outbound*, launch the client UI for MiContact Centre Phone Manager Outbound to make and disposition outbound dialler calls

* This icon will only appear when licensed and/or when configured to appear by an administrator. ** These icons only appear when NOT using Presence Profiles.

Call History

The Call History window shows all internal, external and missed calls on all of your assigned devices.

When the Call History window is not open, any missed calls will be notified with a red circle on the tab. Calls can be returned by pressing the handset icon.

A history of any calls made to or by any of the devices associated with your user account will be displayed. To see additional information regarding calls expand the Phone Manager application to full screen.

Right clicking on a history line allows you to add the contact to your directory.

Contacts	Call History		
	Number	Time	Talk Time 💧
⊻ (•) 🛇	Seymore Skinner	13:18	00:00
👱 🕑 🕓	Hank McCoy	13:18	00:00
